

WESTERBEKE™ GASOLINE GENERATORS Houseboat Series

CONTINUOUS QUALITY POWER

The Westerbeke family of "Houseboat Generators" is powered by dependable four-cylinder engines for smooth and quiet operation. Their proven reliability with houseboat rental fleets has made Westerbeke gensets the "standard of the industry." These modern overhead cam engines operate at a slow 1800 RPM for long life and low maintenance. The unique Westerbeke Gasdenser™ insures an uninterrupted flow of gasoline to the engine in the high ambient temperatures typically found in generator compartments and engine rooms.

All Westerbeke gensets come with a 5-year limited warranty. As an added convenience, Westerbeke also offers Spare Parts Kits for routine maintenance or for a complete overhaul, available for each model generator we manufacture. Just ask your local distributor or dealer about these and many other available options. The Houseboat Series from Westerbeke: Continuous – Quality – Power.
