

# WESTERBEKE

*the choice  
yachtsmen  
depend on*

Both the new boat buyer and the experienced yachtsman recognize the dependability of diesel power.

WESTERBEKE diesel engines have been designed specifically for sailboat application and have long been recognized by leading boat builders as the finest in engineering excellence, reliability, adaptability and performance.

We can properly match power to hull and we invite your inquiry. Insist on a WESTERBEKE.

# WESTERBEKE

**offers the following accessory equipment to make your hours afloat more enjoyable.**

## GENERATORS

WESTERBEKE generators are ideally suited to powerboat or sailboat applications. Available in several sizes from our popular WPD-4, 4 KW series to the powerful BR, 45 KW power plant, WESTERBEKE generators will quietly and efficiently supply power for refrigeration, electric cooking, power tools, navigation, communication and entertainment equipment. Additionally, we have the in-house capability to custom build diesel generators in virtually any size to suit your requirements.

WESTERBEKE manufactures generators in 4, 10, 15, 20, 30 and 45 KW capacity.

*Shown here is the BR series generator, available in 30 or 45 KW capacities.*

## Model SS3 Sea-Still

An automatic evaporator with low power drain, the model SS3 Sea-Still will make up to 100 gallons per day of drinking water. Built of Fiberglass, Monel and Cupro-Nickel, the SS3 operates on 12V DC and draws approximately 15 amps. An accessory power pack is available for use with 120-240V AC shipboard systems.

## WESTERBEKE Boat Heater

The WESTERBEKE Boat Heater is a very low power drain kerosene cabin heater which offers odor-free heat with a variable capacity of 2000-6150 BTU's forced hot air. With proper ducting and some insulation, a single WESTERBEKE Boat Heater will provide warm dry air throughout your boat all season long.
